SITES PROJECT AUTHORITY

Organization of Authority and List of Board of Directors
December 31, 2017

Sites Project Authority (the Authority) was established on August 26, 2010, when seven regional entities, including several local water agencies and Counties, executed the Joint Exercise of Power Agreement. The primary purpose of the Authority, as stated in the agreement, is to pursue the development and construction of the Sites Reservoir Project, which has long been viewed as an ideal location for additional off stream storage to provide direct and real benefits to instream flows, the Delta ecosystem, and water supply. In keeping their commitment to move the project forward on behalf of the region, the Authority has spent the last seven years working towards this goal by engaging the public, various stakeholders, state and federal agencies and landowners, initiating the required environmental planning process, and conducting feasibility studies, among other efforts.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Sites Project Authority
Maxwell, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Sites Project Authority (the Authority), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Directors
Sites Project Authority

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of December 31, 2017, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information, and the budgetary comparison schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 9, 2018 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

SITES PROJECT AUTHORITY

Management Discussion and Analysis December 31, 2017

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the Sites Project Authority (the Authority) provides an introduction to the financial statements of the Authority for the year ended December 31, 2017, and a comparison to the prior audited financial statements for the year ended December 31, 2016. We encourage readers to consider the information presented here in conjunction with the transmittal letter in the Introductory Section and with the basic financial statements and related notes, which follow this section.

Financial Highlights

- The Authority's assets exceed liabilities by \$7,148,968 as of December 31, 2017.
- The Authority's revenues exceeded expenditures by \$5,863,370 for the year ending December 31, 2017. The Authority's largest expense was for professional services. Professional services were 81% of total expenses for the year ending December 31, 2017.

Required Financial Statements

This annual report consists of a series of financial statements. The *Statement of Net Position* and the *Statement of Activities* provide information about the activities and performance of the Authority using accounting methods similar to those used by private sector companies.

The *Statement of Net Position* includes all of the Authority's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing a rate of return, evaluating the capital structure of the Authority, and assessing the liquidity and financial flexibility of the Authority. All of the current period's revenue and expenses are accounted for in the *Statement of Activities*. This statement measures the success of the Authority's operations over the past year and can be used to determine if the Authority has successfully recovered all of its costs through its revenues. This statement can also be used to evaluate profitability and credit worthiness.

More detailed information about the Authority's most significant funds – not the Authority as a whole, is provided in the fund financial statements. Funds are accounting devices the Authority uses to keep track of specific sources of funding and spending on particular programs. The *Balance Sheet* for governmental funds presents financial information by fund types showing money left at year-end available for spending. The *Statement of Revenues, Expenditures, and Changes in Fund Balances* for all governmental fund types focuses on how money flows into and out of the various funds.

Financial Analysis of the Authority

One of the most important questions asked about the Authority finances is, "Is the Authority better off or worse off as a result of this year's activities?" The *Statement of Net Position* and the *Statement of Activities* report information about the Authority in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the Authority's net assets and changes in them. You can think of the Authority's net assets - the difference between assets and liabilities - as one way to measure the Authority's financial health or financial position. Over time, increases or decreases in the Authority's

SITES PROJECT AUTHORITY

Management Discussion and Analysis December 31, 2017

net assets are one indicator of whether its financial health is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning, and new or changed government legislation, such as changes in Federal and State regulations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Statement of Net Position

Assets	2017	2016	Change
Cash and investments	\$ 7,627,135	\$ 2,484,136	\$ 5,142,999
Other current assets	161,982	29,777	132,205
Total Assets	<u>7,789,117</u>	<u>2,513,913</u>	<u>5,275,204</u>
Liabilities			
Accounts payable	640,149	1,228,315	(588,166)
Total Liabilities	<u>640,149</u>	<u>1,228,315</u>	<u>(588,166)</u>
Net Position			
Unrestricted	<u>7,148,968</u>	<u>1,285,598</u>	<u>5,863,370</u>
Total Net Position	<u>\$ 7,148,968</u>	<u>\$ 1,285,598</u>	<u>\$ 5,863,370</u>

As discussed earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Authority, assets exceeded liabilities by \$7,148,968 and \$1,285,598 as of December 31, 2017 and 2016, respectively.

The largest portion, 98%, of the Authority's assets was cash in bank as of December 31, 2017.

Accounts payable decreased from \$1,228,315 as of December 31, 2016, to \$640,149 as of December 31, 2017, due primarily to professional fees incurred in the last quarter of 2016 but not paid until 2017.

At the end of fiscal years 2017 and 2016, the Authority showed a positive balance in its unrestricted net position of \$7,148,968 and \$1,285,598, respectively.

SITES PROJECT AUTHORITY

Management Discussion and Analysis December 31, 2017

Statement of Activities

	2017	2016	Change
General Revenues			
Membership Admin/Authority	\$ 720,001	\$ 561,300	\$ 158,701
Membership - Water	11,725,027	3,296,640	8,428,387
Total Revenues	12,445,028	3,857,940	8,587,088
Operating expenses			
Authority/Admin	667,301	463,995	203,306
Reservoir	5,914,357	2,814,647	3,099,710
Total Expenditures	6,581,658	3,278,642	3,303,016
Change in Net Position	\$ 5,863,370	\$ 579,298	\$ 5,284,072

The *Statement of Activities* shows how the Authority's net position changed during the periods. In the case of the Authority, net position increased by \$5,863,370 and \$579,298 for the years ending December 31, 2017 and 2016, respectively.

A closer examination of the sources of changes in net position reveals that:

Total revenue, which consisted of member dues and assessments, increased by \$8,587,088 from the year ending December 31, 2016, to the year ended December 31, 2017. Total expenses increased by \$3,303,016 from the year ending December 31, 2016, to the year ended December 31, 2017, due primarily to the increased scope of work required to further the project.

Authority/Admin expenses comprised 10.14% and 14.15% of total expenses for the years ending December 31, 2017 and 2016, respectively. Reservoir expenses comprised 89.86% and 85.85% of total expenses for the years ending December 31, 2017 and 2016, respectively.

General Fund Budgetary Highlights

The Authority's total budget for the General Fund for the year ended December 31, 2017, showed excess expenditures over revenues of \$404 compared to the actual amount of excess revenues over expenditures of \$52,700. The difference was primarily due to the determination of critical tasks that were required to be postponed.

	Actual	Budget	Variance
Revenues	\$ 720,001	\$ 780,000	\$ (59,999)
Operating Expenses	667,301	780,404	113,103
Net Increase (Decrease)	\$ 52,700	\$ (404)	\$ 53,104

SITES PROJECT AUTHORITY

Management Discussion and Analysis
December 31, 2017

Conditions Affecting Current Financial Position

The Authority continues to plan and expand project activities to build the large water infrastructure project. Expanding activities results in a continuation of yearly increases to annual financial budgets.

Future Plans for the Sites Reservoir Project

Since the last audit, the Authority completed and submitted its California Water Commission (CWC) application seeking Proposition 1 funding. The Authority will continue to respond to CWC requests for information regarding the application until the CWC process is completed in 2018.

The Authority will continue to expand its governance and member participation. In March 2017, the Authority added two additional to the Board; the City of Roseville and Placer County sharing one seat and the Western Canal filling the second seat.

Additional key activities planned for the next year also include developing a detailed Phase 2 work plan and financing plan, and the development of the process and requirements needed to procure professional services to support the implementation of the Phase 2 work plan.

Requests for Information

This financial report is designed to provide the Authority's funding sources, customers, stakeholders, and other interested parties with an overview of the Authority's financial operations and financial condition. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the Authority's Treasurer at P.O. Box 517, Maxwell, California 95955 or view the website of the Authority at www.sitesjpa.org.

SITES PROJECT AUTHORITY

Notes to the Financial Statements
December 31, 2017

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity: Sites Project Authority (the Authority) was established as an independent special agency in August of 2010 under the Joint Exercise of Powers Act, California Government Code, Section 6500.

As of December 31, 2017, 19 public entities, filling 12 Board seats, were approved members of the Authority as follows:

Glenn-Colusa Irrigation District	Westside Water District
Reclamation District 108	Proberta Water District
Tehama-Colusa Canal Authority	LaGrande Water District
Maxwell Irrigation District	Dunnigan Water District
County of Glenn	Cortina Water District
County of Colusa	Davis Water District
Colusa County Water District	4M Water District
Orland Artois Water District	City of Roseville
Tehama-Colusa Canal Authority	Placer County Water District
Western Canal Water District	

The Authority is a public entity district and therefore, falls under the guidelines of a special district governmental entity. The Authority is governed by a board of directors that consists of one representative of each member.

The Authority was developed with the purpose to effectively study, promote, develop, design, finance, acquire, construct, manage, and operate Sites Reservoir and the related facilities. The purpose of pursuing and developing the Sites Reservoir are to: (a) increase surface water storage and enhance water management flexibility in the Sacramento Valley, (b) provide flood control benefits, (c) improve conditions for fish and wildlife in the Sacramento Valley and (d) improve the operation of the State's water system.

Financial Statement Presentation: The *Statement of Net Position* and *Statement of Activities* display information about the primary government (the Authority). These statements include the financial activities of the overall government. These statements report the governmental activities of the Authority, which are normally supported by inter-governmental revenues. The Authority had no business-type activities as of and for the year ended December 31, 2017.

The *Statement of Activities* presents a comparison between direct expenses and program revenues for each function of the Authority's governmental activities. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include operating grants. Revenues that are not classified as program revenues are presented instead as general revenues.

SITES PROJECT AUTHORITY

Notes to the Financial Statements
December 31, 2017

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Fund financial statements of the Authority are organized into one fund which is considered to be a separate accounting entity. The fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures. The Authority reports two funds, the General Fund, which accounts for all revenues and expenditures necessary to carry out the administrative activities of the Authority, and the Reservoir Fund, a special revenue fund used to account for specific work activities for the development of the Sites Reservoir Project.

Basis of Accounting and Measurement Focus: Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Authority gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants, entitlements, and donations.

Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Charges for services, operating grants, and use of money and property are accrued when their receipt occurs within sixty days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting.

Cash: The Authority's cash includes demand deposits. The Authority had no investments during the year ending December 31, 2017.

The governing board has not formally adopted any deposit and investment policies that limits the Authority's allowable deposits or investments and addresses the specific type of risk to which the Authority is exposed.

Due from Other Governments: Amounts due from other governments represent amounts due from member agencies that has been earned but not received by the end of the period.

As of December 31, 2017, the Authority has determined that all amounts are collectable and therefore, no doubtful account allowance was deemed necessary as of December 31, 2017.

SITES PROJECT AUTHORITY

Notes to the Financial Statements
December 31, 2017

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Prepaid Expenses: Payments for insurance that were made during the year ending December 31, 2017, and the expenditure relates to future accounting periods are recorded as prepaid items in the Authority's financial statements.

Capital Assets: The Authority defines capital assets as property, plant, equipment, and infrastructure assets with an initial individual cost of \$5,000 and a useful life of three years or more. As of December 31, 2017, the Authority had no capital assets.

Government-Wide Net Position:

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

Government-wide net position is reported in three components - net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

Net investment in capital assets - This component consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - This component consists of constraints placed on net position through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted - This component consists of all other net position that does not meet the definition of "restricted" or "net investment in capital assets", as defined above.

Governmental Fund Balance: In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable - Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of state or federal laws, or externally imposed conditions by grantors or creditors.

Committed - Amounts that can be used only for specific purposes determined by formal action of the Authority.

Assigned - Amounts that are designated by the Authority to be used for specific purposes, but are neither restricted nor committed. The board of directors has the authority to assign amounts to be used for specific purposes.

Unassigned - All amounts not included in other spendable classifications.

SITES PROJECT AUTHORITY

Notes to the Financial Statements
December 31, 2017

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Estimates: The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2: CASH AND INVESTMENTS

Demand Deposits: The carrying amount and the bank balance of the Authority's cash as of December 31, 2017, were \$7,627,135 and \$7,629,215, respectively. The Federal Deposit Insurance Corporation (FDIC) insures deposits up to \$250,000. As of December 31, 2017, \$7,379,215 was in excess of the insurance coverage.

Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The California Government Code and the Authority's investment policy do not contain legal or policy requirements limiting exposure to custodial risk for deposits or investments. The California Government Code requires that a bank secure deposits made by state and local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by public agencies. California law also allows financial institutions to secure the Authority's deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

NOTE 3: RISK MANAGEMENT

The Authority is exposed to various risks and general liabilities. The Authority participates in a public entity risk pool as a member of Association of California Water Agencies Joint Powers Insurance Authority (ACWA-JPIA). Each ACWA-JPIA member agency shares surpluses and deficits proportional to their participation. The Authority pays retrospectively rated annual premiums to ACWA-JPIA for its insurance coverage and has met all obligations since participation began.

NOTE 4: COMMITMENTS AND CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability. The amount of expenditures, if any, which may be disallowed by the grantor, cannot be determined at this time although the Authority expects such amounts, if any, to be immaterial.

The Authority has outstanding contracts related to EIR/EIS and feasibility study. The remaining commitments on these contracts as of December 31, 2017, were minimal as the contracts can be canceled with a thirty-day notice.

SITES PROJECT AUTHORITY

Notes to the Financial Statements
December 31, 2017

NOTE 5: SUBSEQUENT EVENTS

Subsequent events have been evaluated through July 9, 2018, the date the financial statements were available to be issued and have determined that no adjustments are necessary to the amounts reported in the accompanying financial statements nor have any subsequent events occurred, the nature of which would require disclosure.

REQUIRED SUPPLEMENTARY INFORMATION

SITES PROJECT AUTHORITY

Notes to the Required Supplementary Information
December 31, 2017

Note 1 - Budgetary Basis of Accounting

Budgets are prepared on the cash and expenditures or encumbrances basis. Revenues are budgeted in the year receipt is expected; expenditures are budgeted in the year that the applicable warrant requisitions are expected to be issued. The budget and actual financial statements are reported on the above basis, with no material differences between them.

Annual budget requests are submitted by the Authority's staff to the board of directors for preliminary review and approval. After public hearing, a final budget is approved by the board of directors, with a resolution adopting said budget. Copies of the approved budget are sent to all required agencies.

OTHER REPORTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Sites Project Authority
Maxwell, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General Fund of Sites Project Authority, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated July 9, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Directors
Sites Project Authority

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
